My outage essentials

Picture an evening without power. Would you need the fridge, a lamp, or a well pump if your home has one? Start with your own shortlist.

What would I keep running?

Examples: refrigerator overnight, kitchen lights after dark, well pump as needed.

Appliance, device or room	When do I need it?	Target hours

If I could keep only one of these running, I would choose _____

What is already at home?

Check everything you already own.

☐ Solar panels ☐ Gas generator ☐ Home battery ☐ None ☐ Not sure

Equipment model, if known _____

Project budget _____ **When would I like it ready?** _____

What should I ask an electrician?

If I rely on a well, what would an electrician need to check about my pump?

My question _____

_____
